

Sports and English camp in Svilengrad, Bulgaria 2009

As we met together for the first evening it was a great encouragement to have Lubo point out that the youth sitting beside us were fruit from last year's Sports and English camp.

They have been meeting together with Kati every Friday since last year and really enjoying it. When we asked them, they had nothing but great things to say about their youth meetings. What a cool start to our time together.

Monday began at the sports field with around 10 children and grew to 25 before we left at midday. Over the coming days more children appeared adding to those already excited. It was a great time together enjoying American football,

Preparing for the camp, and the camp itself. A lot of fun and games were played.

Learning English through board games.

Listening to a presentation about the camp.

Group photo of the camp participants.
